

Contractor Testimonial  
19<sup>th</sup> March 2020

*JWC is a high-end residential construction company operating on Sydney's North Shore, Northern Beaches & Eastern Suburbs. Over the past decade we have been in search of Sydney's leading contractors across all facets of residential construction in order to assist us with delivering the highest level of quality & customer service.*

*Previously, Air-Conditioning contractors have caused issues for our business and clients in relation to providing options and executing the scope of works within the proposed timeline.*

*We engaged Aquilo Air to undertake the A/C works on one of our larger scale residential projects. From the outset Glen provided a series of practical options and solutions to our client. This was then backed up with regular site meetings prior to the commencement of works in order to ensure that every last detail had been thought through, priced accurately and designed in line with our clients wishes. The execution of the project was seamless and as such, has provided me with a high level of confidence in using Aquilo Air across all of our residential projects.*

*Aquilo Air is now our go to contractor for Air-Con works, we would have no hesitation in recommending and referring them to anyone looking to undertake A/C works.*
